

This statement must be completed, signed, and sent through the submission system. No article will be published in the Health Sciences Journal without sending this statement.

Title of the manuscript:

I. Research funding sources:

Inform where the resources for the research came from research funding agencies, non-profit organizations and institutions, own incentives, or private sponsorship.

- This study was funded by
- The present study was partially funded by
- The present study had no external sources of funding.

II. Statement of Conflicts of Interests:

The Health Sciences Journal requires that EACH author disclose any personal financial arrangements that might be perceived as a conflict of interest concerning this study. Conflicts of interest include, but are not limited to:

- a. A financial contribution from a company or organization that might benefit (or lose) financially from the results, conclusions, or discussion presented in the paper/letter. Examples include, but are not limited to, royalties, patents (or patents pending), fees for consulting, fees for speaking when organized by a corporate-sponsored speakers' bureau, funds for a member of the author's staff or family;
- b. Stocks, shares, or options in a company or organization that might benefit (or lose) financially from the results, conclusion, or discussion presented in the paper/letter;
- c. Other potential conflicts which could include an academic association or antagonism with someone whose interest might be affected by the publication, membership in a particular interest group whose interests might be affected by the paper, or other strong convictions that might have affected what was written.

List conflicts of interest for EACH author below. If there are no conflicts of interest, please state "The author has no competing interests in the present article".
